

## HISTORY, EVOLUTION AND FUTURE OF ADDITIVE MANUFACTURING

Presented by:

**DAVE TELINDERT**

**PRESIDENT OF ADVANTAGE  
PROTOTYPE SYSTEMS LLC**

Additive manufacturing is staged to change the way we design, produce & manufacture goods across a wide range of market sectors. New applications are being discovered daily as this technology continues to evolve into a transformative new tool pushing past the boundaries of prototyping.

This session will focus on:

- A crash course on the history of 3D printing
- The 7 families of additive manufacturing/3d printing
- Emerging uses in the field of aerospace
- The future of additive, key new players & equipment

# WEDNESDAY DEC. 11, 2018

**11:45 AM REGISTRATION**  
LUNCH INCLUDED WITH REGISTRATION

**NOON - 1 PM PROGRAM**

**FREE EVENT**

HOSTED BY GREATER OSHKOSH AT:

**EAA MUSEUM**  
**3000 POBEREZNKY RD,**  
**OSHKOSH, WI 54902**
