Getting Started – SAM Registration

CREATE USER ACCOUNT	REGISTER/UPDATE ENTITY	SEARCH RECORDS
Your CCR username will not work in SAM. You will need a new SAM User Account to register or update your entity records. You will also need to create a SAM User Account if you are a government official and need to create Exclusions or search for FOIU information.	You can register your Entity (business, individual, or government agency) to do business with the Federal Government. If you are interested in registering or updating your Entity, you must first create a user account.	All entity records from CCR/FedReg and ORCA and exclusion records from EPLS, active or expired, were moved to SAM. You can search these records and new ones created in SAM. If you are a government user logged in with your SAM user account, you will automatically have access to FOIU information.

WHAT IS SAM?

[Need Help?](#)

The **System for Award Management (SAM)** is the Official U.S. Government system that consolidated the capabilities of CCR/FedReg, ORCA, and EPLS. There is **NO** fee to register for this site. Entities may register at no cost directly from this page. User guides and webinars are available under the Help tab.

DLA Supplier Requirements Visibility Application (SRVA) search routine contains information for DLA's anticipated requirements based on updated monthly forecasts. Forecasts and resulting requirements are subject to revision based on various contingencies such as changes in demand and availability of funds. These estimates are not binding on the Government. When the Government is prepared to purchase a specific quantity of an item, the Government will solicit for that requirement.

SRVA functionality questions should be emailed to SRVA@dla.mil.
