**There is legislation
floating around in DC
to give control of the
Internet to the UN?**

Did You Know?

- Our Everyday things we use. Everything is a computer of some type today! (i.e.-refrigerators, freezers, microwaves, televisions, Disney Magic Bands, cars, etc.)
- That means anything and everything can be a target and/or can be used against a target = mechanized cyber war!
- The Bad Guys don't necessarily want your data...they may want just your equipment!
- Technology is already being used for payment industry, bio, security, safety, food, prevent crime & theft & more!
