Superior Equipment & Supply Co. is a privately owned company servicing the Food Service Industry. We provide the equipment, services and value that every food service operation needs to be successful. The projects vary in size and scope ranging from new construction complete with kitchen and dining facilities to the remodel of the local independently owned restaurant. Our customers rely on our expertise to save them time, money and to provide personalized service – that always exceeds their expectations.

Since 1984 Superior has been successful in providing cost effective foodservice equipment solutions for regional and national multi unit operators, school systems, hospitals, assisted living facilities, hotels, government and supermarkets throughout the United States. Superior's expert commercial consultants work with customers to design equipment systems to match their needs and budget.

Superior Equipment has been in business for over 30 years as a distribution company located in St. Francis, Wisconsin. The Company installs and supplies food service equipment and supplies to the dining facilities in military bases & commissaries, state and local government, schools, casino's, Institutional food service operations, restaurants and supermarkets, along with an ecommerce online store and a retail outlet that is open to the public so the home consumer can shop where the chefs shop!

From commercial ranges and ovens to deli cases, glassware, small wares, paper products, and chemical and janitorial supplies, Superior provides clients with all of the equipment needed to operate a successful food service business. Superior's alliance with nationally renowned suppliers, gives us tremendous purchasing power and national reach, along with the company's aggressive e-commerce sales and programs. The Company is an approved GSA Federal Contract holder & is certified as an 8a, minority and woman owned status for federal and state government contract bid sales, DBE County certified, EBE certified for school systems, and for the private sector with their supplier diversity programs.

The Company's vision is to achieve significant business growth in the public and private sector and supplier diversity programs with a strong presence in the food service segment. It also aspires to be among the top 20 national food service equipment & supply dealers. Together with the commitment of its strong multicultural team, the company continues to

aggressively pursue its mission to become a national food service equipment & supply leader.
