ABOUT THE EVENTS:

IN THE MORNING: the construction season is just around the corner. There are a wide range of government sector contracting opportunities available for construction companies in Wisconsin – on the federal, tribal, state and local level. As a small business, you have a unique advantage in the marketplace. Join us to learn about opportunities from WisDOT, Federal Agencies and Prime Contractors. In addition, you will have the opportunity to learn how to improve your competitive advantage in these markets.

IN THE AFTERNOON: Learn what it takes to become a successful contractor with Federal, State and Local agencies. Topics include evaluating and developing your essential technical and professional capabilities, financial management, project management, contract management and more!
