

Marinette Marine Corporation continues to bring more Navy work to Wisconsin
March 13 2015

Lockheed Martin, Baltimore, Maryland, is being awarded a \$41,247,030 fixed-price incentive fee modification to previously awarded contract (N00024-11-C-2300) to provide procurement and engineering efforts to incorporate seven fiscal 2014 weight optimization changes and install SeaRAM in the place of the Rolling Airframe Missile (RAM) on LCS 17 as well as associated engineering support. Lockheed Martin will provide labor and material support services for the procurement and engineering support, and Marinette Marine Corp. will conduct the design and production changes onboard the hulls. Work will be performed in Marinette, Wisconsin, and is expected to be completed by December 2019. Fiscal 2015 shipbuilding and conversion (Navy) funding in the amount of \$18,847,827 will be obligated at time of award and will not expire at the end of the current fiscal year. The Supervisor of Shipbuilding, Conversion, and Repair, Bath, Maine, is the contracting activity.

Lockheed Martin Corp., Baltimore, Maryland, is being awarded a \$34,557,223 modification to previously awarded contract N00024-11-C-2300 to exercise options for class services efforts and special studies, analyses and reviews for the Littoral Combat Ship (LCS) program. Lockheed Martin will provide engineering and design services as well as affordability efforts to reduce acquisition and lifecycle costs for the Freedom variant LCS. Work will be performed in Hampton, Virginia (32 percent); Marinette, Wisconsin (27 percent); Moorestown, New Jersey (22 percent); and Washington, District of Columbia (19 percent), and is expected to be complete by March 2016. Fiscal 2014 shipbuilding and conversion (Navy) funding in the amount of \$8,000,000 will be obligated at time of award and will not expire at the end of the current fiscal year. The Naval Sea Systems Command, Washington, District of Columbia, is the contracting activity.
