

Joel K. Sensenig, PE, CEM

Joel Sensenig is retired U.S. Navy Civil Engineer Corps Officer with a 20 year proven record of progressive leadership, facilities management and achieving mission and project schedule objectives. Joel has organized, trained and led diverse organizations domestically and internationally; planned complex projects, and developed and executed multi-million dollar facility budgets. He is currently the Director of Facilities for Christ Church Lake Forest, IL.

Joel's career with the Navy began with a project management role in Puerto Rico providing quality assurance, estimating and negotiations on diverse projects from air craft hangars to environmental facilities and coordinating with private industry and Department of Defense construction units (US Navy Seabees) to execute projects. He has spent 10 years leading organizations overseas by providing facilities management and construction oversight for multi-site locations in Puerto Rico, Europe and Bahrain. Additionally, he task organized teams, planned and executed construction projects in Afghanistan and countries in West Africa, supporting Department of Defense and State Department operations.

He is an Adjunct Professor at Northwestern University's McCormick School of Engineering and involved in a number of community organizations; serving on the Board of Directors for the Lake Michigan Post of the Society of American Engineers, North Chicago School District 187 Independent Authority, Westlake Christian Academy Expansion Committee and a member of Christ Church Illinois.

Joel and his wife Courtney currently reside in Grayslake, IL with their five children.
