Thoughts on Army Acquisition

"Acquisition"

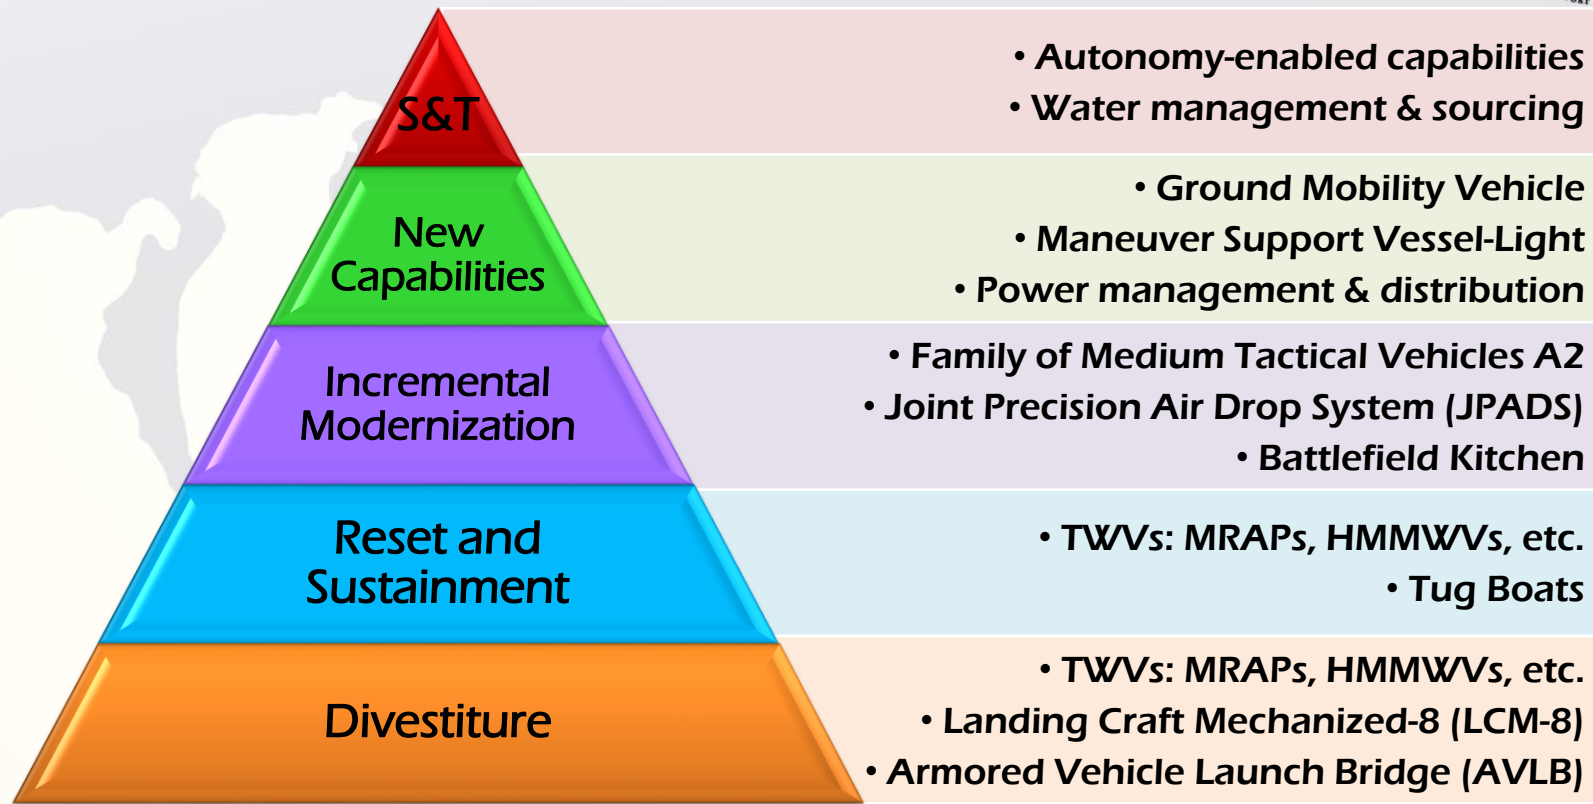

- “acquisition”
 - Army Acquisition Executive
 - 12 Program Executive Offices (PEOs) / subordinate program offices
- Army Acquisition considerations:
 - Facing sustained uncertainty – **Budget and Threats**
 - Transitioning...to a leaner, more capable, more expeditionary force, while...
 - ...investing in programs with the highest operational return and...building new only by exception.

Army Investment Strategy

“Currently, near-term capability gaps are mostly mitigated through incremental improvements to existing platforms and systems, while we make prudent investments in emerging and breakthrough technologies to address future gaps.” –LTG Michael Williamson
