

ADDITIVE MANUFACTURING LECTURE

The role of additive manufacturing in the aerospace sector

A Procurement Technical Assistance Center (PTAC)

Presented by: **PAUL ZAMPRELLI**
SENIOR MANAGER FOR BUSINESS DEVELOPMENT, SIERRA NEVADA CORPORATION

The Aerospace/Aviation sector is advancing with new innovative manufacturing processes and opportunities within the industry. Learn how these innovative processes are making an impact on the aerospace and aviation industry and discuss the challenges, issues and opportunities to grow this technology.

This session will focus on:

- Best practices for success for additive manufacturing
- Advanced technology and materials used in today's latest designs for additive manufacturing
- What industry leaders are doing to implement and embrace the latest technology advancements

FRIDAY

FEB. 16, 2018
