In industries where the SBA finds that there are no small business manufacturers, it may issue a waiver to the nonmanufacturer rule (see [19.102\(f\)\(4\)](#) and (5)). In addition, SBA has excepted procurements processed under simplified acquisition procedures (see Part 13), where the anticipated cost of the procurement will not exceed \$25,000, from the nonmanufacturer rule. **Waivers** permit small businesses to provide any firm's product. The **exception** permits small businesses to provide any domestic firm's product.
 - Expectation of receiving offers from at **least two responsible small businesses**, including nonmanufacturers, offering the products of **different concerns and a fair market price**
