# FPDS - update

- FPDS is moving to <https://beta.sam.gov>

## FPDS Reports are moving to **beta.SAM.gov**

FPDS reports will be migrating to the **beta.SAM.gov** Databank by the end of the second quarter of fiscal year 2020.

We will migrate those ad hoc reports created on or before January 31, 2020 which were saved and run at least once between January 1, 2019 to January 31, 2020.

Please see our [Transition Fact Sheet](#).

# Today's goals

1. Review the importance of documenting your search goal(s).
2. Highlight the importance of the Data Dictionary
3. Determine what data elements can be used for gathering information
4. Understand available tools/resources
5. Provide an overview of FPDS search methods  
ezSearch | Standard Reports | AdHoc Reports
6. How to use ezSearch
7. How to modify (edit) query criteria
8. How to download data to Excel

# Questions

- Who are potential sources?
- Can they support me?
- How many businesses are there?
- Does the data support a Set-aside?
- What size of awards have been typically made to Small Businesses?
- Many, many more ...

# What is FPDS?

- Database of Federal Contract awards \*
- \*Unclassified, other restrictions, --
  - will often include small dollar awards/deobligations (negative amounts) – anti deficiency act
- Information categories
  - ➔ • Metrics – things that are measured
    - Examples
      - Action Obligation
      - Actions
      - Number of Records
  - ➔ • Attributes – characteristics of Metrics (approximately 300 data elements)
    - Examples (general)
      - Who purchased – agency, department, contracting office
      - What was purchased – NAICS/PSC/Description of Requirement
      - Size of business – Large or Small
      - Greater than 200 data elements

# FPDS – Limitations, related to downloads\*

- ezSearch will state a greater number of items but the download will **be limited to 30,000 with move – will be increased to 150k**
- Maximum, **five years of results – with move – will be increased to 12yrs**

Or

- 30,000 results – this is typically the critical issue\*\*\*\*
- Data presentation / format
  - As is from FPDS the data is difficult to use or make sense of
  - Limited formatting capability

# Three ways to engage FPDS

Today's focus

- ✓ ezSearch – described as Google-like on home page
  - Returns set elements, a good starting point
- ✓ Standard reports
  - Who
  - What
  - Where
  - When
  - How
- ✓ Adhoc reports
  - Create a specific report using – greatest flexibility
    - Metrics, attributes and time

# FPDS – managing the 30,000 limit

- Criteria – 1
  - NAICS & Action Obligation
    - 1,175 NAICS codes (FY-18) – report completes
- Criteria – 2
  - Date signed & Action Obligation
    - 365\* days – report completes
- Criteria – 3
  - NAICS & Date Signed & Action Obligation
    - 1,175 NAICS for each day (365 days)
    - Number of records =  $1,175 * 365 === \underline{428,875}$  – will not display

# Options – managing the 30,000 limit

- Reduce scope
  - $30,000 \text{ (FPDS limit)} / 365 = \text{Number of NAICS} \sim 82$
  - $30,000 / 1,175 = \text{Number of days} \sim 25$
  - $30,000 / \text{targeted set of NAICS}$
- Reduce level of detail
  - PIID (contract level) problematic
  - Vendor level
- A related issue is processing the data
  - Excel & other program limits
