

Kevin Van De Ven

Fincantieri Marinette Marine

My name is Kevin Van De Ven and I am the Strategic Sourcing Manager at Fincantieri Marinette Marine. I have been in the Procurement world for over 12 years with experience in both Direct and Indirect Materials and Services and continue to learn more and expand my capabilities every day. In my professional life, I strive to enhance the company I work for through Process Improvements and Cost Reductions while improving Quality and Efficiencies. I want to be the best leader possible for my team; helping them succeed, learn, and improve themselves so they can become as successful as they desire. When I am not spending time with my family at home, we are typically up north spending time in the great outdoors.
