

John Murphy
Senior Vice President, Green Bay Operations
Miron Construction Co, Inc.

John utilizes his more than 20 years of experience and leadership in construction management, with a focus on operations, to lead Miron's business development, pre-construction, and construction efforts throughout the Green Bay region. John's exceptional ability to deliver Miron's unique client experience assists him as he delves into all aspects of client and partner relations.

Prior to this position, John served as both a senior project manager and project executive for Miron. John was tasked with some of Miron's most complex and high-profile projects in Wisconsin and throughout the United States.

John is a graduate of Milwaukee School of Engineering and holds a Bachelor of Science degree in architectural engineering. He is also a LEED AP BD+C.
