# THE NEW SAM.GOV

- SAM integration, scheduled for May 24, 2021, migrated the functionality of SAM.gov into beta.SAM.gov. The term “beta” was retired, and now there is only one SAM.gov. This change affects all SAM.gov users.
- The System for Award Management (SAM) uses Login.gov for authentication when you log in. To link to the data you already have in SAM, use the same email address for your login.gov account. If you want to change your email address, we recommend you do it **AFTER** you have successfully linked your SAM profile and login.gov account.
- If you do not remember the email address you used for SAM, please contact the [Federal Service Desk](#) for assistance.
- For help with Login.gov accounts you should visit <http://login.gov/help> for information. This includes if you need to reset your password, forgot your email address, or need to manage your login.gov account.
- **NOTE:** Your login.gov user account is unique to you as an individual user. Your account includes your personal contact information and controls roles and permissions that pertain to your job functions as they relate to IAE systems. You should never share your login.gov account credentials with anyone else, including your colleagues, administrator, or even the Help Desk.

## What Happens When SAM.gov and beta.SAM.gov Merge?

### What will NOT change:

- Searching current beta.SAM.gov domains **will not change**
  - Contract opportunities
  - Wage determinations
  - Assistance listings
  - Federal hierarchy
  - Contract data reports
- Entity registration process and requirements
- Registration data entry pages
- Searching active exclusions

Data will migrate from legacy SAM.gov with **no action needed from entities or users:**

- Registration and exclusions data
- SAM user roles
- Service Contract reporting data
- BioPreferred reporting data

# ENTITY REGISTRATION / RENEWAL

## Getting Started with Registration

This the official U.S. government website for entity registration. Entity registration is FREE.

Entity Registration Home

### Before You Get Started

Before you start your registration, there are a few steps you must complete first. Review these steps to help ensure you set aside enough time to complete your registration.

#### 1 Request a DUNS Number

All entities wishing to do business with the federal government must have a unique entity identifier (UEI). Currently, the DUNS number, which is a unique nine-character identification number provided by Dun & Bradstreet (D&B) free of charge, is the official UEI. D&B assigns UEI (DUNS) for each physical location of a business. Requesting a UEI (DUNS) takes about 10 minutes. Receiving a UEI (DUNS) takes 1-2 business days (under normal circumstances) when using the D&B web form.

Sam.gov reports can be used to support analysis of federal spending including geographical analysis, market analysis, and analysis on the impact of the congressional and presidential initiatives in socio-economic areas such as small business spending. The data is also a reliable basis for measuring and assessing the impact of Federal acquisition policy and management improvement.

**Contract Data Reports**

Reports on acquisition awards are available to the public. Your reports provide detailed information on awarded contracts and associated modifications. Reports can assist with market analysis including data by federal organization, geographical area, business demographics, and product/service type.

**Ad Hoc Reports**

The Ad Hoc Reports feature offers the ability to select individual fields from the database to run a query. Please note that the ideal users of the Ad Hoc Reports feature have both knowledge of the data fields and understand how to use an advanced reporting tool.
