ANNOUNCED TODAY – THIRD PARTY ADMIN

- Effective September 16, 2022, Entity Administrators assigning new roles to third parties will only be able to assign a Data Entry role to third parties. Entities assigning Entity Administrator roles using a notarized letter will no longer be able to assign the entity administrator role to a third party. Existing Entity Administrators who are third parties will retain those roles for now.
- At a later date, Entity Administrator roles assigned to third parties will be converted to Data Entry roles. With a Data Entry role, third parties can still create and manage entity registrations, but cannot manage roles.
