LOCAL GOVERNMENTS

- **Milwaukee Metropolitan Sewerage District (MMSD)** – Small, Veteran, Women, Minority (SWMBE) Businesses – 318 certified in their database
 - To apply for MMSD SBE certification, businesses must complete the application.
<https://www.mmsd.com/procurement/supplier-diversity>

MMSD SBE Certification is valid for three years. Firms wishing to renew their certification must submit a new application and business tax returns for the past three years.

- Effective December 5, 2017, the Milwaukee Metropolitan Sewerage District (MMSD) modified its Small Business Enterprise (SBE) certification program to align with the U.S. Small Business Administration (SBA) in its definition of a small business. Previously, MMSD defined a small business as a business not exceeding 2.5 million in gross sales during the most recent calendar or fiscal year. **Moving forward, a small business is defined as a business not exceeding the SBA size standard for its industry.** A size standard represents the largest size that a business (including its subsidiaries and affiliates) may be to remain classified as a small business. SBA size standards vary by industry classification and can be defined by average annual receipts for the past three years or average number of employees over the past twelve months. Businesses can use the [SBA size standards tool](#) to determine if their business can be classified as a small business.
- **NOTE:** MMSD does recognize other certifications:

How to Register as an SWMBE Vendor

All firms interested in doing business are encouraged to register in MMSD's [contract and vendor management system](#). Completing the vendor registration does not guarantee a contract with MMSD but will allow firms to receive communication and notices for relevant procurement opportunities with the District.

Please note: Firms seeking SWMBE certification must be registered before their certification can be approved.

MMSD Small Business Certification

To apply for MMSD SBE certification, businesses must complete the [Small Business Certification application](#). MMSD SBE Certification is valid for three years. Firms wishing to renew their certification must submit a new application and business tax returns for the past three years.

To be eligible for SBE certification, firms must meet the size standard for its industry as set forth by the U.S. Small Business Administration (SBA). A size standard represents the largest size that a business (including its subsidiaries and affiliates) may be to remain classified as a small business. SBA size standards vary by industry classification and can be defined by average annual receipts for the past three years or the average number of employees over the past twelve months.

Businesses can use the [SBA size standards tool](#) to determine if their business can be classified as a small business.

Recognized SWMBE Certifications

While there are various entities that provide SWMBE certification services, below are links to the most common SWMBE certifications that MMSD recognizes:
