## Organization Description

Veolia is a global leader in water and wastewater treatment solutions for industrial applications and operates over 6,500 water and wastewater treatment plants worldwide. We partner with our customers to strengthen their business from an environmental, social, and governance (ESG) perspective by providing innovative technical operations and maintenance (O&M) solutions that improve plant availability, minimize risk, and reduce system lifecycle costs.

We have extensive technical experience operating, maintaining, and optimizing water and wastewater treatment systems for over 100 industrial clients in North America across a wide range of sectors, including oil and gas, power generation, manufacturing, food and beverage, pharmaceuticals, and more. Our in-depth knowledge of each industry segment, coupled with a comprehensive suite of digitally-enabled services and flexible maintenance contracts, allows us to deliver fit-for-purpose solutions that align with each client's operational, financial, and regulatory needs.

# BUYER

**WISCONSIN**  
ECONOMIC DEVELOPMENT

From system upgrades and preventative maintenance, to process optimization and site reviews, we help our customers overcome their water and wastewater treatment challenges so that they can focus on what matters most — core business activities.
